

Business Analyst / Growth Officer Internship – Internship

UpStride

Location: Station F, Paris, France Language : English

This is an ideal position to learn first-hand how fast-paced tech start-ups work and to train in the core skillset necessary to lead them through growth: you may think of it as a **start-up MBA**.

About UpStride

UpStride is an Artificial Intelligence start-up, with a unique technology: we improve a fundamental brick that most people take for granted, namely the data type used in computations. By rethinking this foundation of computing, we are able to boost the performance of Computer Vision applications, allowing 10 times more efficient Deep Learning models.

This translates our clients into significant savings both in terms of time and money when it comes to building and deploying AI.

UpStride was founded 2018 by a Machine Learning Researcher (PhD at the Technical University Munich, University of Sao Paulo, Thalès, CERN), a former Fintech executive (Telecom Paris, LSE, McKinsey, eFront) and an Operations specialist (Sciences Po, ESCP, SGCIB, McKinsey) with a clear ambition: reshaping the way computers process information.

Following our first equity round, led by prestigious investors, we are accelerating and assembling a dream team to capture our markets in Europe and in the US.

We are looking for smart and energetic people excited about how AI will reshape tomorrow's world, and eager to take on new challenges to grow an early-stage company into a game changer.

Details on the position

UpStride is hiring a **Business Analyst / Growth Officer intern** to be the **right-hand to the Founders**. Your role is to be an extension of the founding team, and to participate in shaping the strategy and accelerating the operations of a wildly innovative startup ambitioning to revolutionize computing.

This challenging role will bring you to:

- Help the Founders advance the **strategic vision** by conducting analyses of the tech ecosystem and market opportunities, to confirm development priorities, update the Business Plan, drive product positioning, set up pricing, and identify sales opportunities
- Support the **scale-up of operations** by taking part in the recruitment process, business development and customer success monitoring, in an international environment
- Aid maintaining **smooth investor relations** through adequate reporting processes
- Act as a **sparring partner** to the CEO and COO as we work closely together and learn on the job how to transform a garage project into a unicorn

We are based at Station F in Paris, and can grant access to nearby and low-priced accommodation at the “flatmates” building operated by Station F.

We are flexible on the length and dates of the internship, and offer a competitive compensation.

If you want to join us or have any questions, we are happy to connect! Reach out directly to our COO: arthur.segard@upstride.io
